Washington, April 13.—The cruiser Des Moines will be the only additional warship sent to Dominican waters until further details of the differences be-tween President Jiminez and his congress are received here. The Des Moines was ordered today from Pro-

greso to San Domingo City.

The exact nature of the break between the Dominican executive and his legislators is not known, but as their differences have been of long standing, it is assumed that Minister Sullivan, in asking for an additional warship, feared the dispute might be fanned into another revolution. The attention of officials here has been chiefly focussed on the economic situation in the island republic recently. What was regarded as a ten-dency to extravagance on the part of the Dominican authorities was checked within a fortnight when the United States cut off an allowance of \$2,000 daily, which the Dominican officials had been drawing from their customs re serves funds to satisfy a deficit in
